

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R09-OAR-2021-0620; FRL-9188-01-R9]

Air Plan Approval; California; Ventura County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve revisions to the Ventura County Air Pollution Control District (VCAPCD) portion of the California State Implementation Plan (SIP). These revisions concern emissions of volatile organic compounds (VOCs) from surface cleaning and degreasing operations, and from batch loaded vapor degreasing operations. We are proposing to approve changes to SIP-approved local rules to regulate these emission sources under the Clean Air Act (CAA or the Act). We are taking comments on this proposal and plan to follow with a final action.

DATES: Comments must be received on or before [Insert date 30 days after date of publication in the *Federal Register*].

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R09-OAR-2021-0620 at <https://www.regulations.gov>. For comments submitted at Regulations.gov, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional

submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. If you need assistance in a language other than English or if you are a person with disabilities who needs a reasonable accommodation at no cost to you, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

FOR FURTHER INFORMATION CONTACT: Robert Schwartz or Doris Lo, EPA Region IX, 75 Hawthorne St., San Francisco, CA 94105. By phone: (415) 972-3959 or by email at lo.doris@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, “we,” “us” and “our” refer to the EPA.

Table of Contents

- I. The State’s Submittal
 - A. What rules did the State submit?
 - B. Are there other versions of these rules?
 - C. What is the purpose of the submitted rule revisions?
- II. The EPA’s Evaluation and Action
 - A. How is the EPA evaluating the rules?
 - B. Do the rules meet the evaluation criteria?
 - C. The EPA’s recommendations to further improve the rules
 - D. Public comment and proposed action
- III. Incorporation by Reference
- IV. Statutory and Executive Order Reviews

I. The State’s Submittal

- A. *What rules did the State submit?*

Table 1 lists the rules addressed by this proposal with the dates that they were adopted by the local air agency and submitted by the California Air Resources Board (CARB).

TABLE 1 - SUBMITTED RULES

Local Agency	Rule #	Rule Title	Revised and Adopted	Submitted
VCAPCD	74.6	Surface Cleaning and Degreasing	11/10/2020	07/26/2021
VCAPCD	74.6.1	Batch Loaded Vapor Degreasers	11/10/2020	07/26/2021

On September 25, 2021, the EPA determined that the submittal for VCAPCD Rule 74.6 and Rule 74.6.1 met the completeness criteria in 40 CFR Part 51 Appendix V, which must be met before formal EPA review.

B. Are there other versions of these rules?

We approved earlier versions of Rule 74.6 and Rule 74.6.1 into the SIP on October 25, 2005.¹ The VCAPCD adopted revisions to the SIP-approved versions on November 10, 2020, and CARB submitted them to us on July 26, 2021. If we take final action to approve the November 10, 2020 versions of Rule 74.6 and Rule 74.6.1, these versions will replace the previously approved versions of these rules in the SIP.

C. What is the purpose of the submitted rule revisions?

Emissions of VOCs contribute to the production of ground-level ozone and smog, which harm human health and the environment. Section 110(a) of the CAA requires states to submit regulations that control VOC emissions. The District revised Rule 74.6 to contain more stringent solvent cleaning VOC limits, remove an inappropriate exemption for sources covered by a National Emission Standards for Hazardous Air Pollutants (NESHAP) standard, and to add several housekeeping updates. Rule 74.6.1 was revised to include more stringent requirements for alternative cleaning systems, recordkeeping, and test methods; to remove an inappropriate exemption for sources covered by a NESHAP standard, and to add several housekeeping updates. The EPA's technical support document (TSD) has more information about these rules.

¹ 70 FR 61561.

II. The EPA's Evaluation and Action

A. How is the EPA evaluating the rules?

Rules in the SIP must be enforceable (see CAA section 110(a)(2)), must not interfere with applicable requirements concerning attainment and reasonable further progress or other CAA requirements (see CAA section 110(l)), and must not modify certain SIP control requirements in nonattainment areas without ensuring equivalent or greater emissions reductions (see CAA section 193).

Generally, SIP rules must require reasonably available control technology (RACT) for each category of sources covered by a Control Techniques Guidelines (CTG) document as well as each major source of VOCs in ozone nonattainment areas classified as Moderate or above (see CAA section 182(b)(2)). The VCAPCD regulates an ozone nonattainment area classified as a Serious nonattainment area for the 2008 and 2015 8-hour ozone national ambient air quality standards (40 CFR 81.305). Therefore, these rules must implement RACT.

Guidance and policy documents that we used to evaluate enforceability, revision/relaxation and rule stringency requirements for the applicable criteria pollutants include the following:

1. "State Implementation Plans; General Preamble for the Implementation of Title I of the Clean Air Act Amendments of 1990," 57 FR 13498 (April 16, 1992); 57 FR 18070 (April 28, 1992).
2. "Issues Relating to VOC Regulation Cutpoints, Deficiencies, and Deviations," EPA, May 25, 1988 (the Bluebook, revised January 11, 1990).
3. "Guidance Document for Correcting Common VOC & Other Rule Deficiencies," EPA Region 9, August 21, 2001 (the Little Bluebook).
4. "Control of Volatile Organic Emissions from Solvent Metal Cleaning," EPA-450/2-77-022, November 1977.
5. "Control Techniques Guidelines for Industrial Cleaning Solvents," EPA-453/R-06-001,

September 2006.

B. *Do the rules meet the evaluation criteria?*

These rules meet CAA requirements and are consistent with relevant guidance regarding enforceability, RACT, and SIP revisions. The District revised Rule 74.6 to contain more stringent solvent cleaning VOC limits and to remove an inappropriate exemption for sources covered by a NESHAP standard. Rule 74.6.1 was revised to include more stringent requirements for alternative cleaning systems, recordkeeping, and test methods, and to remove an inappropriate exemption for sources covered by a NESHAP standard. The TSD has more information on our evaluation.

C. *The EPA's recommendations to further improve the rules*

We recommend that the District revise Rule 74.6 to contain consistent record retention requirements of at least five years in all applicable provisions of the rule. The TSD includes additional recommendations for the next time the local agency modifies the rules.

D. *Public comment and proposed action*

As authorized in section 110(k)(3) of the Act, the EPA proposes to fully approve the submitted rules because they fulfill all relevant requirements. We will accept comments from the public on this proposal until **[Insert date 30 days after date of publication in the *Federal Register*]**.

III. Incorporation by Reference

In this rule, the EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the VCAPCD rules described in Table 1 of this preamble. The EPA has made, and will continue to make, these materials available through <https://www.regulations.gov> and at the EPA Region IX Office (please contact the persons identified in the FOR FURTHER INFORMATION CONTACT section of this preamble for more information).

IV. Statutory and Executive Order Reviews.

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this proposed action merely proposes to approve state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those

requirements would be inconsistent with the Clean Air Act; and

- Does not provide the EPA with the discretionary authority to address disproportionate human health or environmental effects with practical, appropriate, and legally permissible methods under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

AUTHORITY: 42 U.S.C. 7401 *et seq.*
